

# PAY TO PLAY: END IT TODAY

**PROBLEM:** Contractors that work with the government don't have to disclose their political spending.

**Translation:** These corporations can use anonymous funds to help elect the same lawmakers responsible for awarding government contracts.

**Result:** A pay-to-play system awarding contracts in exchange for contributions.

**SOLUTION:** An executive order.

**Translation:** Closing the corrupting loophole doesn't require an act of Congress. Obama could require contractors to disclose their political spending.

**Result:** Transparency and a reduction of money in politics.

Americans have a **RIGHT TO KNOW** if government contracts are awarded based on **MERIT, NOT MONEY.**
